MRS. ALBERT O. "WHITE" SIDNEY, MO. T. A.

1935 PRICE LIST.

TERMS: CASH ON ORDER. No order accepted for less than $1.00. All items prepaid in U. S. where order amounts to $5.00. Any plant listed will stand 20 degrees below zero. Not less than three plants of any one variety sold.

ACHILLEA millefolium: White flowers. 3 for 35¢ $1.25 per doz.

ALLIUM reticulatum: A pretty dwarf, white-flowering form that blooms nearly all summer. 3 for 35¢ $1.25 per doz.

ANEMONES patens: Require gravelly soil and grow in sun or shade. They appear shortly after snow disappears. They are commonly called "Wild Crocus", owing to their many striking similarities to the crocus. The flowers range in color from almost white through blue to bluish purple. From 5 to 6 inches high.

ANTHEMIS umbrinella: A low-growing perennial with whitish flowers nearly all summer. 3 for 35¢ $1.25 per doz.

AQUILEGIA canadensis: One of our prettiest wild flowers with yellow and red flowers an inch long.

ARABIS Lambertii: A low-growing plant with red, purple to blue, or white flowers in May. Leaflets silvery.

ARTEMISIA frigida: A silvery, low-growing plant that will do well in any good garden soil.

ASTRAGALUS trilobatus: A low-growing, silvery leaf plant with white flowers. These have to be sent in small seedlings as larger plants will not transplant. Blooms in May. Found growing in clay soil.

ASTER: "Blue Upland." A low-growing plant with blue flowers. Makes a very good border plant.

ASTER: "Tall Blue." Another beautiful native attaining a height of 3 to 5 feet.

CACTUS Missouriensis: A cushion-sort, with yellow flowers. 3 for 30¢ $1.00 per doz.

CACTUS viviparus: A cushion-sort, with purple flowers. 3 for 30¢ $1.00 per doz.

CACTUS CLUMPS: Oftimes these are found in clumps of from 3 to sometimes as many as 30 or more. There will be one or two large ones with small ones around them. These I will sell at the following prices:

- Clumps from 3 to 5: 35¢ each.
- Clumps from 5 to 10: 45¢ each.
- Clumps from 10 to 20: 60¢ each.

All over 20: $1.00 each.

CALCOCHRUS Nuttallii: "Mariposa Lily" is a very desirable plant. Grows on southern slopes of hills in rocky soil.

CASTLEMILIA scabilliflora: "Painted Cactus.

YELLOW FLOWERS:

COSSWELLI: Montana: A low-growing plant that bears heads of white or yellow flowers nearly all summer.

COXDEMIA umbellata: Flowers like small white stars in clusters. "Will do well if given a sunny location.

COTYDOPIA arcuata: "Nice Yellow flowers in May and June.

CUTTOVILM: "The Little Harlequin", very common and showy.

DROITIA: A handsome, August-blooming, native perennial with masses of small white, aster-like flowers. Grows in dense clumps.

DELPHINIUM bicolor: "Low Larkspur."
DISTYLOXIS trachycarpum: "White bell flowers."
Grows in shade.

ERIGERON annuus: "White daisy with yellow center."
Blooms in June.

ERIOMYX flavum: Yellow flowers in June.

FREITILLARIA auriculata: A dainty three-petaled, purple and mottled, nodding flower. Grows from a bulb in soft sand. Is very desirable, and easily grown in cultivation.

GENIUM calycosum: Large showy flowers of deep blue, clustered on stems 6 inches or more tall. Must be shifted yearly.

GALEREA borealis: "White flowers in June."

Gaultheria procumbens: "A low-growing plant with scarlet blossoms in June and July."

GUTIERREZIA flavescens: Yellow flowers in June.

HEUCHEREA pringlei: The beauty of this plant is in the foliage in that it stays green nearly all year. Will do well in both sun and shade.

LEUCANTHEMUM montanum: A dwarf perennial with grass-like foliage. Flowers like a small white lily.

LEPTOCYclus columnare: Yellow coneflower.

LEUCOiZIELLA alpina: A low-growing plant with small yellow flowers in June. Found growing among rocks.

LEUCOCOIRE argentea: Pale yellow flowers in early evening. Give a sunny location.

LILACIS: "Blazing Star." Deep purple flowers produced on stalklike racemes, in late summer and autumn. Will thrive on poor soil, and makes an effective border plant.

LINUM perenne: Another beautiful native. Very hardy and thrives well in any soil, producing a dense mass of stems covered with beautiful blue flowers in June and July.

LIOTOSTEMUM augustifolia: A low-growing plant with male yellow flowers from June until frost.

LUPINS: Blue flowers in early spring.

MALVAGNAPHY cocineum: is a good little plant that takes readily to cultivation and improves greatly. The skeleton-like grayish leaves round out to a wonderful degree in cultivation. The orange-scarlet little blossoms are like tiny single hollyhocks, about one inch across, borne in terminal clusters which keep growing and blooming nearly all summer. Give a sunny location.

MERTHA pincialis: Amaranth plant found in moist places. "Will grow in any good garden soil. Blue flowers all summer.

MYRTETIA ornata: Have beautiful ten-petaled white flowers that do not open until evening. In a letter from Mrs. "Hilder she says hers were perfectly beautiful."

OCTOPODA humifusa: Very hardy. Yellow flowers in June and July.

OCTOPODA fragilis: Very hardy. Narrow leaves than 0. humifusa. Yellow flowers in June and July.

ODONOGAVP affinis: "White flowers in May and June.

POLEMONIUM acuminatus: Plants to a foot in height and bears beautiful violet-blue trumpets in a handsome spike.

PETALOSTEMUM candidum: White prairie clover.

PHLOX aestivum: A low-growing plant found on rocky hillsides. Pink flowers, changing to white, bloom in May.

PHLOX nuttallii: A charming gray-leaved, white-flowering dwarf that blooms in May and June.

PACHELYSTIS: Fragrant primrose.
PONTIILLA Pennsylvanica: A low-growing plant with yellow flowers in May and June.
RANUNCULUS cymbalaria: A low-growing plant with yellow flowers in May.
RANUNCULUS alsobrunus: A low-growing plant with yellow flowers. Grows more upright and a little larger than R. cymbalaria.
RANUNCULUS venosus: Perennial by a woody root stalk. Flowers redish in color.
SECOCTORON cymbelara: A low-growing plant with yellow flowers in May.
RUMEX Gloria: A spike of white flowers in May. Easily cultivated.

TOXOCRA exscapa: "The Spring Daisy." Mrs. Wilder says of this plant, "One of the most winning of the wild flowers that have been sent me from the west. It makes a little dusty-looking splash of narrow leaves upon the ground upon which sits in May the most small and lovely and innocent pink Daisy with a wide yellow eye. It is perfectly hardy, and entirely delightful.

TYRANNOCRA Virginia: Has pretty, blue, three-petaled flowers from June until frost.
TRIUMORFUM: Beautiful fern-like foliage resembling that of Columbine. Has a dense clump of foliage surmounted by a feathery tuft of white blossoms.
TRADUCATA Virginia: Has pretty, blue, three-petaled flowers from June until frost.
TRADUCATA Virginia: Has pretty, blue, three-petaled flowers from June until frost.

All shrubs are 25¢ each—$2.50 per doz.
